## 2.22 - The Redesign Update

We are already through a fifth of 2025! 2.22, quite an extensive update, with multiple redesigns and additions to multiple elements.

2.22 introduces the FentaMini (a Pynx Project), re-adds Onion links to the Ethical Hacking Society, revamps Index sections, adds code blocks, and added a new tech story.

**View the changelog details on the next couple of slides.** →

AT Products LLC

### 2020

AT Products was just a simple thought around this time, a company owned by Alex Toucan. It would become genuine with the help of Discord, as it gave Alex Toucan some reputation.
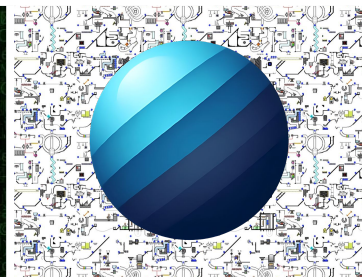

```cpp
C++

#include <iostream>
#include <string>

int main() {
    // Declare a string variable
    std::string str = "codinghome";
}
```

# FentaMini
